

NeuralNote

BRAND PACK

More knowledge, less setup.

Built for instant use.

Identity / palette / typography / applications / product roadmap

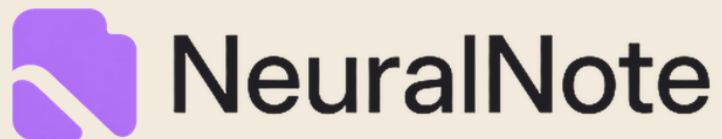

The identity stays. The promise gets clearer.

One mark, one wordmark and one simple reason to choose NeuralNote.

More knowledge, less setup.

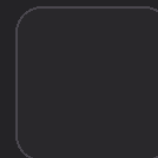

Built for instant use.

LIGHT APPLICATION

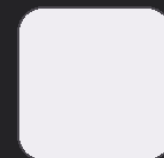

VIOLET

CHARCOAL

CREAM

SOFT WHITE

Built for instant use.

A complete knowledge workflow, built on files you own.

01

READY MADE

Capture, organisation and search are already part of the product.

02

AI ASSISTANT

NeuralNote helps you understand what you saved and keeps answers connected to the source.

03

USER OWNED

Markdown and YAML remain open, portable and useful without NeuralNote.

BRAND PROMISE

More knowledge, less setup.

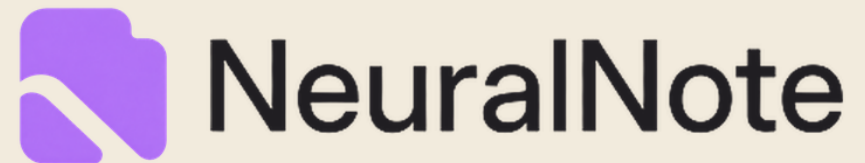

A note that connects.

The symbol combines a note tile, a connected thought or page turn, and an index tab that doubles as a citation locator.

DARK SURFACES

Violet mark + soft-white wordmark

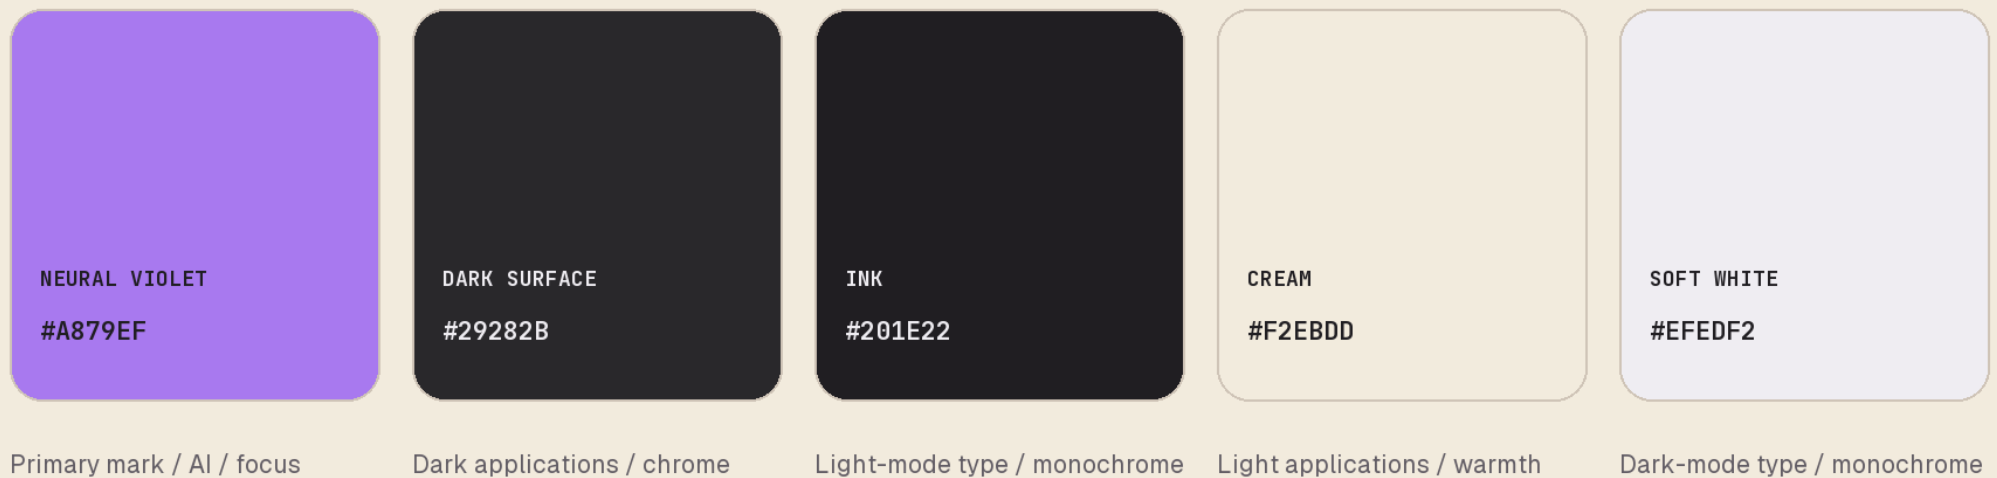

LIGHT SURFACES

Violet mark + ink wordmark

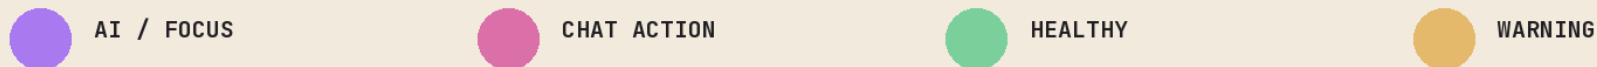

Keep the diagonal fold transparent. It should reveal the surface behind the mark.

Low chroma. One clear signal.

Charcoal and cream do the structural work. Violet carries NeuralNote's intelligence and identity.

PRODUCT SEMANTICS

Use semantic colour sparingly. Errors and health states must remain explicit in copy, not colour alone.

Quiet type. Clear hierarchy.

The brand and the product use related but deliberately separate typography roles.

BRAND / GEIST VARIABLE

NeuralNote

Calm, compact and precise.

DISPLAY

Geist Medium 500

BODY

Geist Regular 400

PRODUCT UI

Inter

UI and note reading

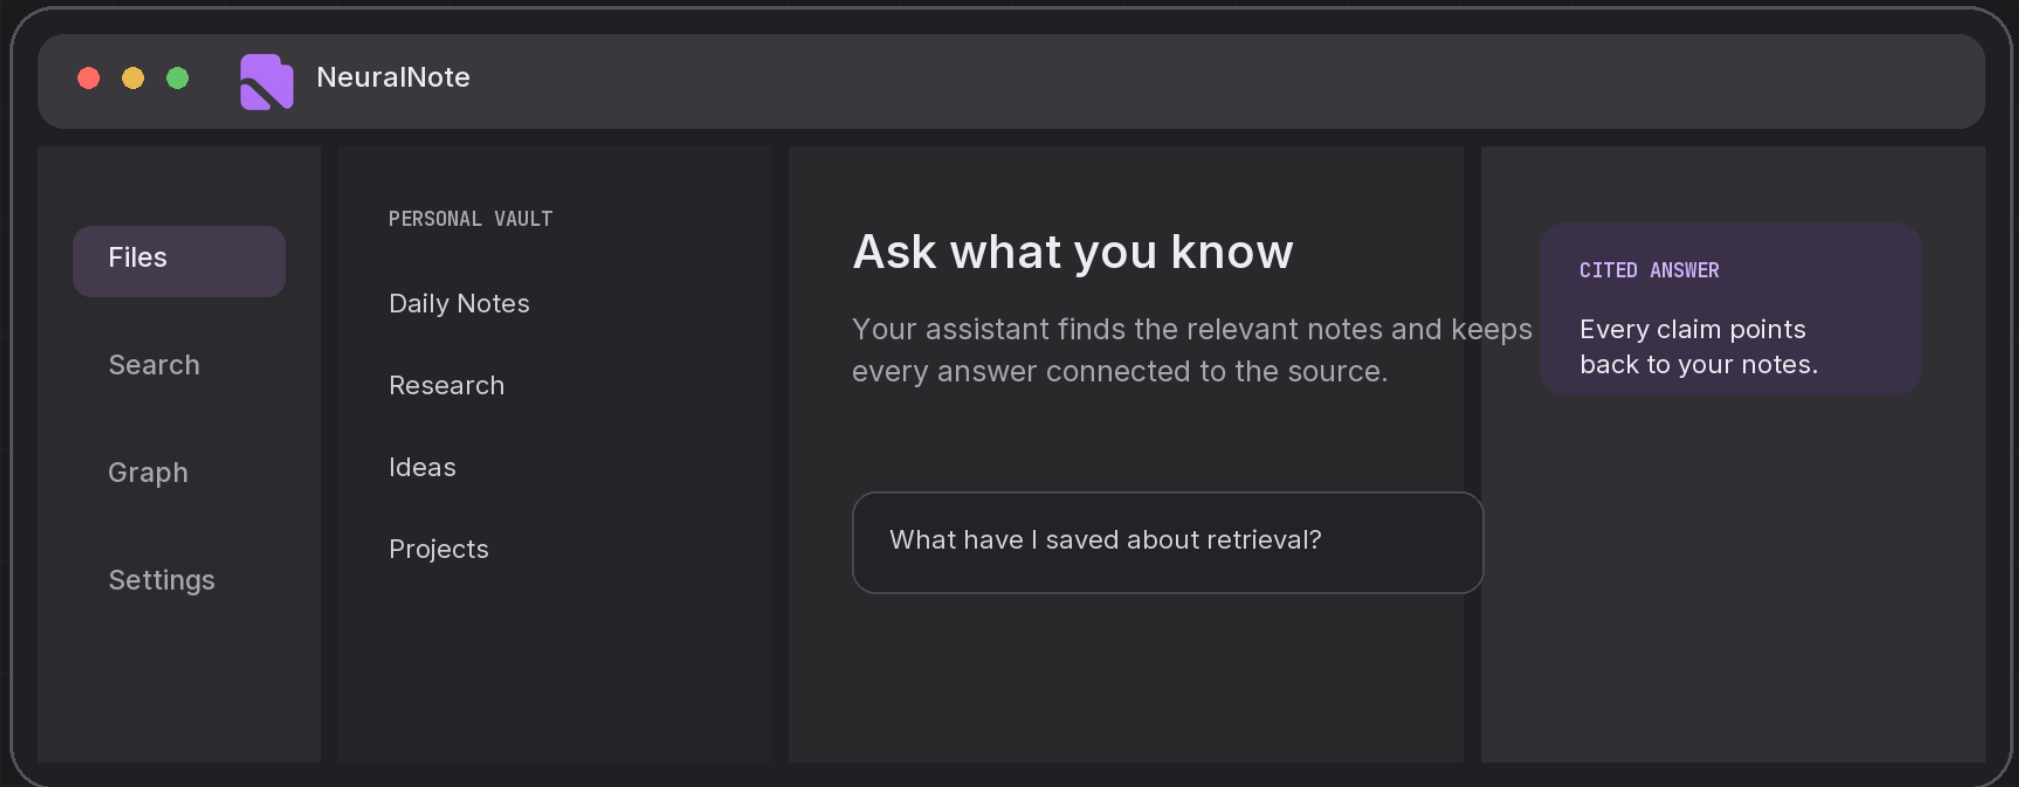

JetBrains Mono

paths / models / time / metadata

Do not retype the raster wordmark.

Your AI-powered knowledge assistant.

Open a Markdown vault and start. Notes, search and connected answers take priority over setup.

No pane-wide gradients. No decorative glow. No silent failures. Motion stays restrained and respects reduced-motion preferences.

Knowledge has structure.

Brand materials should feel like notes becoming connected, indexed and ready to interrogate.

01

THE NOTE TILE

Rounded, calm surfaces. One idea at a time.

02

THE CONNECTION

Thin paths and measured nodes. Never a decorative neural-net cliché.

03

THE CITATION

Precise labels, locators and source chips that make trust visible.

[12-18]

04

THE FOLD

A single diagonal cut that signals transformation without becoming a generic sparkle.

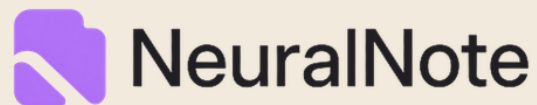

The system scales from icon to story.

Every application repeats the same few ingredients: violet signal, charcoal structure, cream contrast and precise labels.

APP ICON

Recognisable at 16 px.
Quiet enough at 1024 px.

More knowledge,
less setup.

LAUNCH / EDITORIAL

AI ASSISTANT

Built for
instant use.

Desktop / API / Cloud / CLI

Use the supplied masters.

The approved pack is raster-only. Preserve the original files and choose the variant made for the surface.

PRIMARY MARK	neuralnote-mark-violet.png	Transparent / 1024 px
DARK LOCKUP	neuralnote-lockup-dark-bg.png	Violet + soft white
LIGHT LOCKUP	neuralnote-lockup-light-bg.png	Violet + ink
MONOCHROME	neuralnote-mark-black.png / neuralnote-mark-white.png	One-colour production
APP ICON	neuralnote-app-icon.png	Rounded tile / 1024 px
SIZE EXPORTS	icons/ and marks/	16 / 24 / 32 / 64 / 128 / 256 / 512 / 1024

Do not use app/desktop/public/icon.png. It is a legacy cyan-and-yellow asset, not the current NeuralNote identity.

A product family, not a feature list.

The roadmap extends NeuralNote into new surfaces without promising dates or presenting planned products as shipped.

01	NeuralNote Desktop	FOUNDATION	Local-first product home
02	NeuralNote API Server	PLANNED	Reusable service layer
03	NeuralNote Cloud App	PLANNED	Hosted NeuralNote experience
04	NeuralNote CLI	PLANNED	Automation and direct workflows
TBC	Neural Voice	WhisperFlow-like voice interface for talking to AI	

NeuralNote

PRODUCT ROADMAP

More knowledge, less setup.

Built for instant use. Every surface extends the same user-owned knowledge system.

01

FOUNDATION

NeuralNote Desktop

The local-first AI assistant for notes, capture, search and connected answers.

02

PLANNED

NeuralNote API Server

A reusable service layer for NeuralNote's core knowledge and AI capabilities.

03

PLANNED

NeuralNote Cloud App

A hosted NeuralNote experience for access, continuity and future connected workflows.

04

PLANNED

NeuralNote CLI

A direct command-line surface for capture, automation and knowledge workflows.

EXPLORATION / TO BE CONFIRMED

Neural Voice

A WhisperFlow-like voice app designed to help people talk to AI.

NEURALNOTE PRODUCT FAMILY / JULY 2026
